

The Big Buyers Initiative: Observer Group Webinar

*How European collaboration is boosting the procurement
of innovative solutions to achieve climate neutrality*

25 May 2020

The Big Buyers Initiative is a European Commission Platform for promoting collaboration between big public buyers in implementing strategic public procurement

Some house rules:

- Make sure to keep yourself muted
- Let's keep this interactive: if you have questions or want to intervene let us know through the chat!
- The webinar is recorded
- We do not allow the use of video for participants

Agenda

From 13.40	Digital registration and technical check of settings
14.00 - 14.05	Welcome and technical introduction, Anja De Cunto, EUROCITIES
14.05 - 14.10	Presentation of the Big buyers objectives, Kaitlyn Dietz, ICLEI
14.10 - 14.30	Presentation on Zemcons group and Oslo zero emissions pilot construction projects, by Romeo Apetrei-Thomassen, city of Oslo. Followed by Q&A
14.30 – 14.50	Presentation of Circular construction group and Vienna ambitions related to circular constructions, by Anna-Vera Deinhammer, city of Vienna. Followed by Q&A
14.50 – 15.10	Presentation of EVs group and Rotterdam ambitions on heavy-duty electric fleet, by Richard Brabers, city of Rotterdam. Followed by Q&A
15.10 – 15.25	Q&A and sharing of experience
15.25 – 15.30	Conclusions

Get ready to contribute!

- How are you using procurement strategically to achieve your city/company strategic goals?
- Are you thinking of also starting -pilot- projects in any of these fields of action? Or have you already started? How are you speaking with suppliers?
- Were you inspired by the presentations? Would you like to contribute further to any of the BBI groups objectives? How?

What is the Big Buyers Initiative?

Collaboration between **big buyers** in Europe on **strategic public procurement** to help drive the market for **innovative goods and services**

- Three working groups join forces on shared procurement approaches, criteria and messages to the market to drive strategic change
- An initiative of the European Commission, DG Grow
- Managed by EUROCITIES and ICLEI

Zero-emission construction sites

Focus:

- Non-road mobile machinery (construction machines on-site)

Expected outcomes:

- Value proposition pitches for key stakeholders
- Published market engagement guidelines, preparing suppliers for new procurement requirements
- Tried and tested tender criteria

The Buyers:

- Oslo, Copenhagen, Helsinki, Amsterdam, Lisbon, Brussels Mobility, Budapest, Trondheim and Vienna

Zero-emission construction sites

Ongoing activities:

- Pilot procurements underway in Oslo, Helsinki and Copenhagen - *use of shared criteria*
- Pilot procurements being planned in Brussels, Trondheim and Amsterdam
- Exploring methods of benchmarking and monitoring contract performance
- Aligning ambitions for zero emission construction sites and jointly announcing procurement plans

Next meeting:

- June – Measuring pilot procurement success: benchmarking and contract performance

Circular construction materials

Focus:

- Improving circularity in the construction sector by fomenting procurement of secondary or reusable/ recyclable construction materials

Expected outcomes:

- Capacity building and experience exchange on procuring circular construction and demolition
- Joint market engagement event with secondary material brokers
- Recommendations for EU policy makers

The Buyers:

- Vienna, Amsterdam, Haarlem, Rotterdam, Paris, Oslo, Stavanger, Helsinki, Vantaa, Lisbon, Porto, Brussels and Budapest

Circular construction materials

Ongoing activities:

- Pilots on demolition: Haarlem, Helsinki and Vantaa
- Pilots on including reused/ recycled content in construction: Helsinki, Oslo, Rotterdam and Vienna
- Local market dialogues: Amsterdam, Budapest, Helsinki, Stavanger, Vienna
- Tools and methods being developed: LCA and carbon-footprinting for buildings and building materials, guidelines for pre-demolition audits, tender criteria for inclusion of reused/recycled content

Next meeting:

- June – Market engagement: Secondary Material Brokers

Electric heavy-duty vehicles

Focus

- Electrification of heavy-duty vehicles (waste trucks, street cleaning, heavy delivery)

Expected outcomes

- Shared specifications and tender criteria unique for the public sector
- Joint market dialogue and engagement
- Joint announcement of procurement plans

Buyers

- Rotterdam, Oslo, Helsinki, Budapest, Lisbon, Belgian post, Malmö, Paris, Porto, Amsterdam, Stavanger

Electric heavy-duty vehicles

Ongoing activities

- Collecting list of available vehicles and each city's procurement plans
- Sharing knowledge and best practices on joint platform

Next events:

- Ongoing - Online meetings with suppliers on future technology plans
- September - Market engagement with Volvo in Sweden

Advantages of joint European collaborations

- Support R&D efforts of companies by providing test grounds for pilots
- Build procurer capacity for market consultations & dialogues at a European level
- Share information on product availability, technical specifications, results and prices across Europe
- Share tools, market engagement techniques and successful procurement criteria (i.e. how to evaluate the environmental ambition of tender offers)
- Aggregated demand means higher purchasing power, which ultimately should lead to joint cross border procurement.
