

### **GPP** in practice

Livia Mazzà Budapest 26/01/2017

### **GPP FOR WHOM**

# REGIONAL AND LOCAL AUTHORITIES

### PARK MANAGEMENT AUTHORITIES

Jil of the second

### THEY NEED TO CHANGE

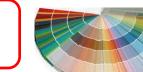

**Wood**: comes from a certified forest

**Glues**: natural or not used

**Paints** are water-based

### **Formaldehyde**

is excluded from processes/products

### WHAT DO THEY ASK FOR?

### **Technical departments (procurement or environment):**

How do we persuade decision makers?

How do we do it?

WE NEED TRAINING!!

#### **Decision makers:**

How do we ensure the result?

Who else is doing it?

How do we involve the supply side?

**WE NEED A PLAN!!** 

## THE STARTING POINT IN THE METROPOLITAN CITY OF ROME

<u>Decision n. 608/30 of 20.07.2004:</u> Implementation of a System of Green Public Procurement for buying goods and services of the Province <u>Decision n. 269/15 of 06.05.09:</u> Approval of Provincial Action Plan for GPP

Seven sustainability changes:

- 1) water savings and water quality;
- 2) promotion of alternative energies;
- 3) waste reduction;
- 4) territorial planning;
- 5) sustainable mobility;
- 6) biodiveristy and wood resources,
- 7)Sustainable administration

### The starting point in Region Sardegna

**GPP Targets** 

#### Inclusion of enviornmental criteria:

- 50% of regional purchases of goods and services
- 20% of regional public works

#### **Adoption of GPP by:**

All provinces and park authorities 50% of municipalities 30% of other public bodies

Operational objectives

Increase internal skills

Promote **responsible consumption** within regional offices

Include compulsory environmental criteria into regional laws and plans

Realize **specific sectoral plans**Inform **citizens and suppliers** on GPP policy

# Our interaction and collaboration with environmental NGOs and local associations

Inclusion of GPP in thematic training courses: Ecomanager (Legambiente); Plans for climate change (Climate Alliance)

Criteria development and tools for the promotion of green procurement (WWF – targeting enterprises)

Train the trainer activities (associations running local Environmental Education and Sustainability Centres in Sardinia and Liguria)

# Added value: networks and EU-funded projects

acquisti per un'economia a bassa intensità di carbonio
